leading through innovation

Imation CD Duplicator

Duplicate CDs in minutes without a computer, software or cables! Ideal for broad office applications from Fortune 500 to small office, home office environments, the CD Duplicator from Imation is user-friendly and easy to use. Simply plug it in, insert a source disc and a target disc and copy. It's that easy. The small, stand-alone disc-to-disc system is ideal for advanced users looking for speed and accuracy. Conveniently portable, the free standing system allows DVD and CD duplication anywhere you need it, any time you want it.

The Imation CD Duplicator is quality built to provide years of trouble-free service with no required maintenance. The system can duplicate a single master CD to CD-R media at up to 52x speeds, resulting in a replica of a 700MB disc in about two and a half minutes. It can also duplicate discs to CD-RW media at up to 32x speeds.

NOTE: Imation CD Duplicator is not intended for duplication of copy encrypted or copyrighted information.

Features & Benefits

- Free Standing System – The Duplicator operates on standard AC power and does not require a PC connection, software download or special cable so it functions entirely as a stand-alone unit, providing convenient duplication any time, anywhere.
- Intelligent Auto Detection – Automatically identifies source media format and replicates at the maximum speed for that media.
- User-friendly LCD Menu – Easy-to-read menus enable quick and accurate copying, and multiple sub functions provide maximum system functionality.
- Continuous Copying – The Duplicator performs continuous copying with no waiting or cool-down needed, ideal for the advanced user who requires speed and accuracy.
